ABOUT LA MAISON DU DOMAINE LOMBARD

A Vibrant Place

La Maison, nestled between vineyards and a stunning landscaped park, is deeply rooted in its natural environment. Overlooking the Rhône Valley, between the Vercors mountains and Ardèche, it opens onto a kaleidoscope of natural beauty bathed in light throughout the seasons. An authentic, inspiring place, designed to make you slow down, breathe, and reconnect.

A House That Embodies a Family Vision

This venue is the natural extension of Domaine Lombard, the family-run wine estate led by the Ardouvin family. From vineyard to venue, every space has been designed as an expression of the same philosophy: respecting the living ecosystems, revealing the potential of the place, and creating the conditions for genuine experiences. Here, owners, teams, guests, and visitors all become part of the story.

A Spirit of Creation and Sharing

La Maison invites you to awaken the senses, share emotions, and savour the moment. At the crossroads of wine, design, and conviviality, every experience is crafted to measure in a lived-in, characterful place that remains profoundly human.

Brézème, a Hidden Gem in the Rhône Valley

At the heart of the Rhône Valley, Brézème is one of the Northern Rhône's rarest and most discreet vineyards. Cultivated since the 15th century on the steep slopes of the river's left bank, this historic vineyard almost disappeared before being revived. Today, Brézème stands as an insider's vineyard, celebrated for the finesse and elegance of its wines, shaped by a preserved natural environment.

Lombard, a Living Terroir and Inspired Hospitality

A historical benchmark in Brézème, Domaine Lombard embodies both the soul and the renewal of this confidential terroir. A committed estate, where respect for life guides every decision.

La Maison was created as a distinctive hospitality venue, a natural extension of the estate where wine becomes a source of inspiration and the surrounding land an experience to be lived and shared.
